Share your love of teaching with our global community!

"You learn something new every day!"
Jessica, Sweden

Teachers are at the heart of everything we do here at Macmillan Education, so we want to celebrate your achievements and passionate commitment to your work.

After launching a brand new scholarship, throughout the year we invited teachers to tell us why they love teaching. Here's just a snapshot of the inspiring responses we've had...

Teachers at the heart

"I can try out new approaches and constantly develop new ideas with students."
Olaf, Germany

"It empowers students and it makes the world a more meaningful place."

Welcome to the Macmillan Education 2016 English Language Teaching Catalogue

Here at Macmillan we have always been proud of our work helping students and teachers across the region achieve personal and national goals. At the national level we work with Ministries of Education such as those in Saudi Arabia, Palestine and the UAE to support curriculum reform programmes with customised print and digital resources (and the implementation support to ensure their success). At the personal level we offer Macmillan teacher training events throughout the year, and participate with our authors and trainers at many regional conferences – Nile TESOL and TESOL Arabia to name just two. I urge you to approach our local team at events such as these, or through the contact details at the back of this catalogue. Many have been teachers themselves; all are passionate about supporting education in their region.

For my part, I look forward to seeing many of you in the year ahead and as always please don't hesitate to get in touch in the meantime.

Matthew Hayes

Regional Director,

**MACMILLAN
LIFE SKILLS**
LANGUAGE IS A LIFE SKILL

Macmillan Education's Carol Higho and Julie Woon receiving their ELTon from Jane Lancaster, Principal and Director, Wimbledon School of English and presenter Angela Rippon.

Macmillan Life Skills wins an ELTon Award!

"The Life Skills campaign was specifically conceived to respond to equip young people with the soft skills they need to succeed in education, in their career and in life.

Featuring specially-commissioned lesson plans, worksheets, articles and videos, plus online and offline events, Life Skills is a teacher support and awareness campaign that gives teachers the inspiration and practical tools to get their students ready for success in the 21st century.

The judges described the winner as 'Focused on genuinely useful skills for life and an excellent, novel, all-round package for both students and teachers.'

Amy Rogers, the British Council

Case study: Universidad Panamericana, Mexico

"We've been using **Macmillan English Campus** for three years. Here, we teach university students, mostly between 18 and 22 years old. Circumstances made it difficult to continue working with textbooks. We especially liked the **English Campus** because it gave us access to the **Global** material, which we had already been using and we really liked it.

Macmillan English Campus allowed us to deliver content without worrying about distributing textbooks to learners. It allowed us to tailor courses to particular teachers, groups and individual students. It gave us access to a wealth of interesting readings and listening selections.

Most teachers recognise its value and our favourite activities in the **English Campus** are the practice activities related to TOEFL or TOEIC test preparation. These are favoured by both teachers and students because they give opportunities to focus on academic writing and speaking skills in the classroom, yet provide scaffolding and practice on discrete item activities, typical of the

standardised tests which students will need to sit in order to prove their level of English for graduation purposes.

The most useful aspect of the platform is precisely the diversity of levels, of activities, and of skills that it focuses on. It covers the range of learning styles and abilities of the users. We would recommend **Macmillan English Campus** to other institutions who require multiple opportunities of input for their students."

Case study: British School Lugo, Italy

"At British School Lugo, we have been using **onestopenglish** for two years. Our students range from three years old to adult students, with classes between four and ten students. They are all learning for various reasons and usually come twice a week for one to two hours. Some students need English for work or university or simply for their own general culture.

Onestopenglish is a very useful teaching tool as it offers many possibilities for the classroom. Using **onestopenglish** gives both teachers and students the opportunity to

have access to a wide range of varied and interesting material. It is very useful if you are looking for resources on a specific subject matter. In particular, I like all the activities it provides for teenagers. The most useful thing is that there is always a ready-prepared and tested lesson plan for so many topics. I would highly recommend it to other institutions as I think all our teachers appreciate the value of **onestopenglish**."

Promote social values, such as friendship and respect and help your students to develop reading skills through this eight-level reading scheme based on L1 methodology. Thanks to the cross-curricular content at higher levels, these Readers can easily be combined with other school subjects. The series is complemented by a four-level phonics scheme called **Macmillan Explorers Phonics**.

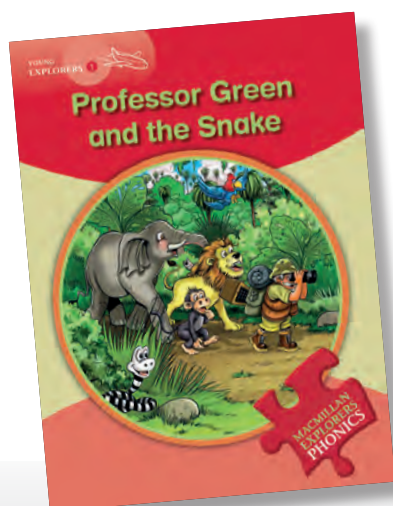

for you

- **Teacher's Notes** support structured whole-class teaching with page-by-page lesson notes
- **Workbooks** and wordcards (included in the Teacher's Notes) reinforce word-recognition skills
- **Worksheets** for each title are easily accessible via the website

for your students

- Colourful books with beautiful illustrations hold your students' attention
- Popular stories retold at your students' own reading level
- Free audio downloads for use in the classroom and at home

Macmillan Explorers Phonics

Find the full list of ISBNs on p94

Teach your students how to blend sounds to read words, and segment the sounds in the words in order to spell them accurately. The phonics focus is set within the context of a story to ensure that reading for meaning is retained.

Use these Readers alongside any primary course. **Macmillan Explorers Phonics** complement the first four levels of the **Macmillan English Explorers**.

for you

- A systematic, clearly defined and structured progression of phonics teaching, supported by the existing **Phonics Workbooks** from the **Macmillan English Explorers** series
- Detailed **Teacher's Notes** show you how to focus on letters and sounds to support pronunciation, reading and spelling

for your students

- Popular and familiar characters from the **Macmillan English Explorers** series reappear in this series
- Free audio downloads for use in the classroom and at home

for parents

A dedicated parent page on the **Macmillan Young Learners** website offers hints and tips on how parents can help their child's literacy progress using **Macmillan Young Readers**.

Macmillan Children's Readers

Find the full list of ISBNs on p93

To introduce fiction and non-fiction titles into your classroom, **Macmillan Children's Readers** are an excellent choice. Each Reader includes a factual section, followed by a fictional story. This topic-based six-level series reinforces the basic structures and vocabulary found in most primary courses and will appeal to boys and girls equally.

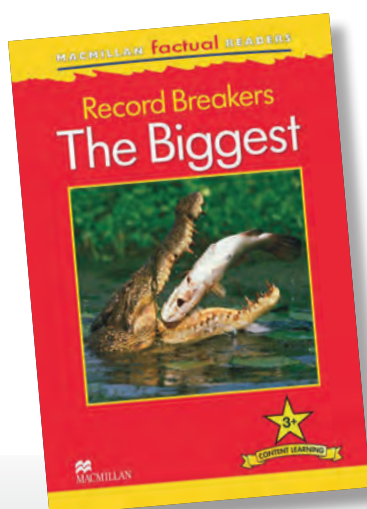

for you

- The **picture dictionary** (or bilingual dictionary) and activity pages included at the back of each reader provide material for more in-class use.
- Full audio, worksheets and **Teacher's Notes** are available to download from the **Macmillan Young Learners** website.

for your students

- The accompanying audio gives students a chance to listen to the stories while they read them, helping to develop reading skills and word recognition
- The drama section on the **Macmillan Young Learners** website includes activities to inspire you and your students to act out the stories that they've read

Macmillan Factual Readers

Find the full list of ISBNs on p93

A perfect match for extensive reading within a CLIL context, including topics from science, geography, history and the natural world. The series uses clear and precise natural language with careful language progression over six levels. Your learners build confidence and fluency in their reading ability as well as enhancing their knowledge of other subjects.

for you

- **Full audio**, exercises and **Teacher's Notes** are available to download from the **Macmillan Young Learners** website

for your students

- All Readers include a glossary with explanations of key vocabulary
- The Readers are beautifully designed and have striking full-colour images

The plus symbol (+) highlights the increased level of challenging language compared to a standard reader.

Gateway to Success

Gateway to Success is an edition which has been specifically adapted with due regard to cultural sensitivities in the Middle East. This five-level academically rich, general English course equips teenage students with the skills to be successful in school-leaving/university entrance examinations, and prepares them for university and the world of work.

p36

Beyond

Beyond follows a practical subskills syllabus, equipping students with strategies they can transfer to other areas of their education. The age-appropriate, 21st century life skills introduce a new dimension to language teaching.

p40

Case study **Casablanca, Morocco**

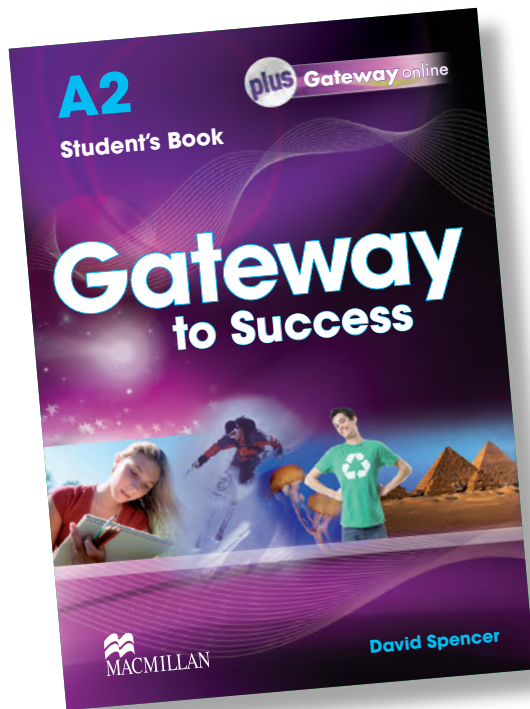

"I believe that teaching English is an art. To perform this art, the teacher needs to be equipped with the right tools. I have been teaching English for the last 19 years. And I have never been satisfied with any of the textbooks I have been using until I used **Gateway**.

The remarkable thing that a teacher will surely notice and feel since the first unit is that his/her students will be exposed to authentic English in a very balanced framework that encompasses reading comprehension, vocabulary, communication, listening, grammar, speaking, writing and cross cultural activities; without forgetting of course, the special care given to the activities targeting exam success skills. Moreover, the choice of the themes is very successful. The students quickly get hooked to the themes and the teacher can see their total engagement in the activities they are doing."

Open Mind

From its robust grammar and language skills syllabus to its unique Life Skills sections over the domains of work, study and personal development, **Open Mind** answers students' needs for fully-rounded language instruction. The series comes with a full complement of digital and print material for flexible blended learning, including an Online Workbook, and allows both you and your students to work in the most suitable way.

p48

Breakthrough Plus

Breakthrough Plus provides cross-cultural, fully communicative general English with a range of native and non-native accents. With its fresh design and engaging topic-based units, this popular American English course offers a comprehensive package for adult and young adult learners, with a new Digital Student's Book and Resource Centres for 2016.

Case study **SBL and English Language Centers, Algiers, Algeria**

"At SBL and ELTC Language Schools in Algiers, we've been using all levels of **Open Mind** and the Mind Series. Most of our students need English for work, and also their studies – in Algeria and abroad. Classes are of mixed ability, but all students are interested in learning and curious.

Most of our teachers like the easy-to-use methodology and the instructions, which are well laid out. My favourite features are the inductive grammar and life skills sections from the series.

The books are colourful, visually attractive and pleasant to teach from. Of everything, the life skills and the inductive grammar inspired me the most."

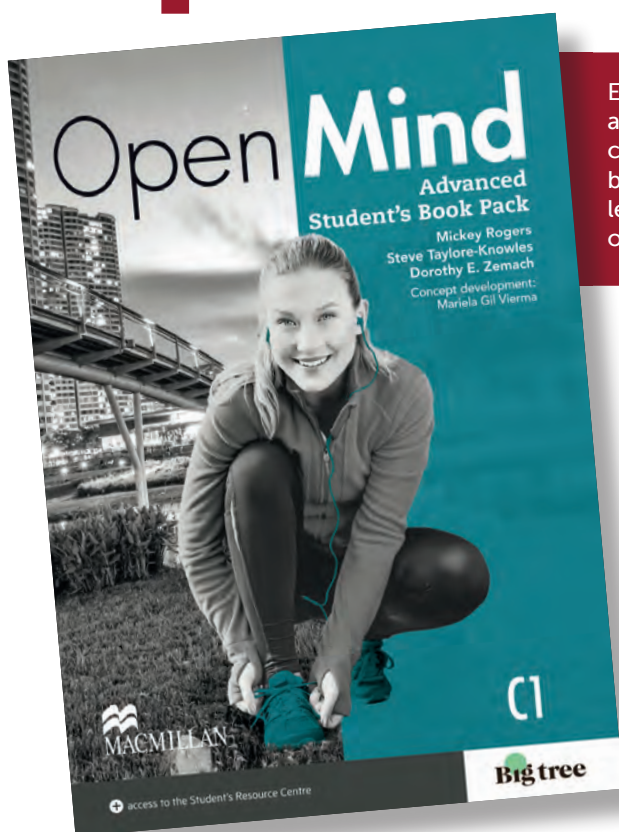

Rabie Oumoussa, School Director and Owner

With learners for life

Open Mind

ADULT

Enjoy the best combination of digital and print material and free up your class time to focus more on your students' communicative needs. This truly flexible new course gives you a balance between preparation, teaching and marking. Your adult learners need language instruction and the skills to be successful outside the classroom. **Open Mind** meets that need.

for you

- Teach straight from the page, with easy-to-implement lessons – fun to teach and learn with
- Your lesson, your choice of material, whether you choose to have students study using digital materials such as the **Online Workbook** or the print counterpart
- Maximises class time by using the optional 'flipped classroom' approach encouraging students to use the **Online Workbooks** at home
- Save marking time and chart progress quickly and easily through the automatic gradebooks
- Access valuable resource material online and the **Presentation Kit** via the **Teacher's Resource Centre**, in one easy-to-use location, anytime and on computers or tablet devices, as well as offline downloadable options

The **Presentation Kit** is a brilliant piece of software. On the very rare days when I have to teach in a classroom without it, I miss having it a lot!

Using American English?
Open Mind is also available
in American English as the
Mind series – comprising
openMind and **masterMind**.

author snapshot: **Steve Taylore-Knowles**

Steve has been involved in ELT for over 20 years as a teacher, examiner, trainer and author. His most recent courses are the **Mind series** and **Open Mind**. He has also written many other successful courses including **Laser** for teenagers and **Destination**.

Steve was on the Executive Board of TESOL Greece and presents on different ELT topics and methodology at conferences worldwide. Steve is based in Bolton in the UK.

A student's experience of learning English has to be seen in the wider context of their whole education. In developing **Open Mind**, we have carefully integrated two aspects of this:

- 1) learning English needs to be personalised, and
- 2) the student needs to develop life skills in preparation for using English in the real world beyond the classroom.

Steve Taylore-Knowles, *Open Mind* Author

Create a heads-up communicative classroom by using the **Open Mind Presentation Kit**** on interactive whiteboards with embedded audio, pop-up answers, videos and other invaluable tools.

for your students

- Life skills features in every unit develop 21st century skills for their working, academic or personal lives
- Regular recycling of skills and functions and focus on functional language build confidence
- Collaborative and autonomous studying opportunities take advantage of the peer- and self-assessment in the speaking and writing sections
- Straightforward inductive grammar coverage with step-by-step analysis of form and function, supported with additional grammar reference sections for easy review
- **Online Workbook*** consolidates the course material and provides instant feedback and progress checks
- **Student's Resource Centre** with wordlists, CEFR checklists and all the listening and video material, with captions and scripts as well as downloadable worksheets to help them study in their own time

Move

www.macmillanenglish.com/move

Move offers a short topic-based unit structure ideal for short intensive or refresher courses. Using a discovery-based approach to vocabulary and grammar, **Move** emphasises achievable language acquisition and practice for learners with limited classroom time.

for you

- The flexible and easy-to-use coursebook comes in three self-contained topic-based modules per level, providing a minimum of 15 hours of core material, ideal for summer or holiday courses
- Extra resources and teaching notes in the **Teacher's Book** extend the content of the **Move** syllabus to longer courses with fewer teaching hours over a term

for your students

- The motivating topics and communicative approach means students can use the language in a more meaningful, personalised way
- Extra practice or revision via the self-study **CD-ROM**
- Additional practice for each module, plus wordlists and reference pages allow students to learn in their own time

Straight to First

An intensive preparation course for students aiming for the Cambridge English: First exam. Each part of the exam is covered in the course, and tips and strategies are given that your students can take and apply in the real exam.

p59

Case study **British Study Centres, Bournemouth, UK**

"For students the most challenging part of the First exam is the Use of English section, for both the grammatical and lexical challenges that it presents.

A good feature of the course is that there is plenty of scope to be able to develop and exploit the materials, certainly when it comes to the vocabulary.

With high quality and depth of content, the material in the first instance is motivating for students - they know they are getting a course with real substance. Furthermore, the course helps develop students' confidence, not just in terms of the exam, but also in a wider, more general context.

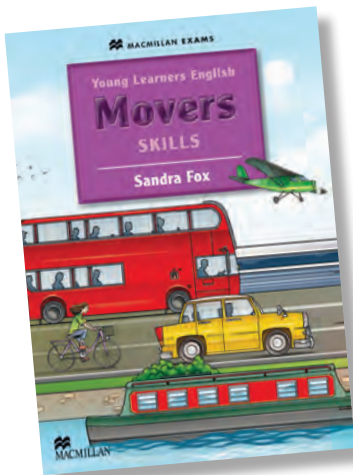

Ready for First covers each of the exam papers in real depth as well as developing students' grammar awareness and range of vocabulary, which doesn't just give them the tools to pass the First exam, but also prepares them for using English in their everyday lives."

Skillful

Skillful is a five-level academic course from Foundation to Advanced. Each level includes both *Listening & Speaking* and *Reading & Writing* coursebooks that complement each other through parallel topics and features, providing the tools for academic success.

p72

Case study

The University of Northampton, UK

"One of the problems we face is to improve students' language skills and to introduce and develop their academic study skills in order for them to be effective undergraduate and post-graduate students.

Skillful introduces, practises and recycles the strategies throughout the course. It takes the students through the learning process where students can practise and recycle a certain academic feature. The strategies are revisited until they become the students' good practice. It's a great pleasure to see the students improve and get better at what they do.

I would recommend **Skillful** to anybody delivering on an English for Academic Purposes course."

Caroline Taylor,
Associate Lecturer in ESL

With learners for life

Skillful

Help your students to build the critical thinking skills vital to academic success, at the same time as developing their language skills. **Skillful** focuses on each of the four skills and immerses the learner in higher-level academic language through engaging academic topics and activities.

The unique study skills focus provides your students with practical guidance and support, building confidence for independent learning throughout a university course.

The Foundation level uses 100% American English. In subsequent levels, British English is added gradually so that by Level 4 there is an equal mix of American and British English.

for you

- **Teacher's Book** with specialist essays, unit assignment sheets and language sheets
- Access to **Teacher's Resource Center**
- Page-faithful **Digital Student's Book** and practice area, featuring interactive activities and video material complete with **Gradebook**

for your students

- **Student's Book** with each level divided into separate *Reading & Writing* and *Listening & Speaking* books – these can be combined for semester-long programmes or studied separately in shorter courses
- **Student's Resource Center** including course videos, course audio and wordlists

- The **Teacher's Resource Centre** provides testing and assessment materials, videos, audio, worksheets, case studies and much more all in one place
- The **Online Workbook** allows you to create and track the progress of virtual or face-to-face classes, saving time planning and marking

There is at the moment a soft skills revolution going on in education, and English Language Teachers with their experience in helping their learners develop communicative competence are ideally placed to add soft skills training to their existing repertoire. If you're already using **In Company**, you'll know that business skills, rather than business topics, have always been at the core of the series.

The Business 2.0

Preparing students to study for a business degree or for future employment requires materials that both introduce workplace situations and provide support with the English needed. The flexible, modular structure of **The Business 2.0** allows you to combine topic-based material from the coursebook with the digital resources to equip your students with everything they need as they study towards being 21st century business students.

for your students

- The topic-based, flexible business English is particularly suited to college and university-level students, and is built on four key areas: language skills, new technologies, business skills and interpersonal skills
- The **eWorkbook** for homework or for self-study consolidates learning in a more interactive way on different devices, and includes audio and video sections
- Motivating and entertaining videos offer examples of good and bad communication and people skills, along with commentaries by communications experts so your students don't make the same mistakes
- Interpersonal skills, focusing on students' emotional intelligence, are covered through structured speaking tasks and case studies

for you

- Transparent links to core business areas including: personal development, service, supply chain, management, sales and marketing, finance and international trade
- A modular structure which allows you to pick and choose to meet your students' needs with interactive practice activities and fun videos to use alongside the core course
- Help new or lower-level students through the introductory 'Business Fundamentals' section in each level, with language and topics including: business organisation, financial control, CVs and covering letters

Because tomorrow's managers need a wide range of skills, each unit of **The Business** has six self-contained modules that focus on:

- key business concepts (Module 1, About Business)
- describing business situations (Module 2, Vocabulary)
- revising grammar (Module 3, Grammar)
- actually doing business (Modules 4, Speaking and 5, Writing)
- communication and people skills (Module 6, Case Study)

Get Ready for International Business

Get Ready for International Business prepares your entry-level or pre-service students for the world of work with practical and communicative business English coverage. It provides the essential, functional English needed for the international workplace, with a strong focus on speaking and listening.

for you

- Language-rich listening texts introduce the core material of each unit exploring the international world of business
- 'In Business' case studies and 'Viewpoints' cross-cultural sections provide further development of the topics
- TOEIC® and BEC-style tasks provide practice in these popular business English exams and are available for both levels
- 60 hours of material per coursebook makes it ideal for short courses or a great core course when using supplementary material
- The **Digibook** provides embedded audio and is ideal for heads-up, communicative learning

for your students

- Students can choose the **Student's Book** with either a TOEIC® or BEC-style of exam preparation
- The grammar reference section and related practice tests provide students with full language support
- 'Viewpoints' pages in each unit follow the same familiar characters across each level and are a great way to learn international English while getting exposure to the global aspects of the professional workplace
- Students get exposure to a realistic practice environment through the 'In Business' case studies

Tiantian Zhongwen Graded Chinese Reader Series

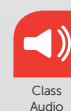

Tiantian Zhongwen is a carefully graded Chinese reader series for language learners at Pre-intermediate and Intermediate level.

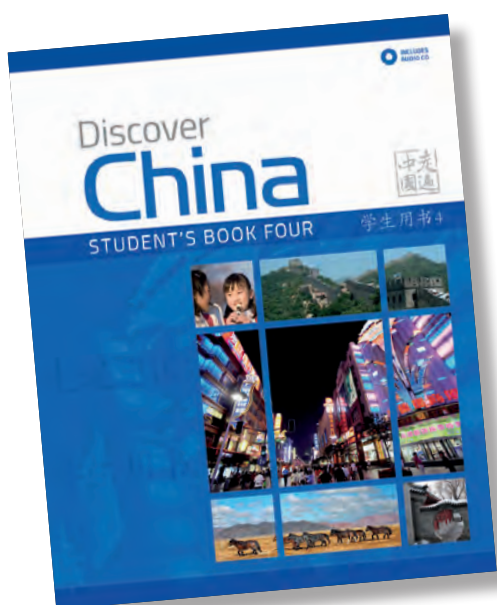

This anthology of short stories contains a rich selection of enjoyable readings about China, covering a wide range of topics including modern China, ancient fables, history, culture, lifestyles and

the Chinese language. The readers can be used as stand-alone, or alongside **Discover China** to give students cultural insight, and to practise character-recognition skills through meaningful contexts.

Discover China

Discover China is based on an established methodology that follows a more communicative approach to language learning. **Discover China** enables learners to make rapid improvements and use Mandarin Chinese confidently in day-to-day situations. Students using **Discover China** achieve better results because they are encouraged to use the language through meaningful communicative activities in every lesson.

The course follows a logical linguistic, topical and functional approach and covers everyday Chinese at the lower levels, then more in-depth cultural topics and issues, as well as using Chinese for specific purposes at the higher levels. Each **Student's Book** includes two **Audio CDs** for intensive aural practice in class, or for self-study. The accompanying **Workbooks** provide extensive exercises for character writing at lower levels, as well as skills practice at all levels.

www.mydiscoverchina.com

Each lesson in **Discover China** possesses all the solid attributes of presentation, practice and production. I particularly like how students are encouraged to 'discover' language and develop their critical thinking skills at every level.

Dr Li Xiuping, Lecturer in Chinese,
University of Ulster

READERS

Love to...

Case study Tripoli University

I have integrated **Macmillan Readers** into the syllabus to support and improve students' reading and speaking skills at all levels of their study at the department.

I've used the Readers in different ways. Individually, the students choose a story, read it at home and then retell the story to the class by giving a summary about the writer, the story, the main characters, the plot and the moral lesson they got. The purpose is to develop reading comprehension and the self-confidence to speak in public. Sometimes students present the story in a presentation using a slide show. In pairs we use the same procedure, but some shy students need support from their classmates.

When working in groups, the class is divided up and each group chooses a story that can be acted out. Sometimes students surprise me by writing the dialogue for some scenes that are not in the book which develops their writing skills as well. All the groups perform their play as part of their assessment and then we choose the best one to be performed at the end of the semester as a part of the English Week activities.

In my experience, the Readers are really enjoyable and beneficial in teaching and learning English if they are used in an effective way.

Macmillan Readers

Fancy taking **Macbeth** to class or sitting with **James Bond** on the bus? With over 180 best-selling titles in the series, **Macmillan Readers** offers a huge choice of popular classics as well as contemporary fiction and non-fiction titles. Most titles are available as paperback books, with **Audio CDs**, as audio downloads or as **eBooks**. Free accompanying exercises, worksheets, tests and glossaries help you make the most of the story and the language. **Macmillan Readers** are the perfect extensive graded reading addition to your classroom.

Macmillan Cultural Readers

Do you know where the world's largest coral reef system is; what natural resources Brazil has to offer; and why China's one of the largest economies in the world? History and culture, city life, nature and sport: these are some of the topics covered in the **Macmillan Cultural Readers** series. As factual Readers with an international focus, these are an essential companion to any secondary or adult course. Offering insightful backgrounds to some of the largest and most influential countries around the world, titles in the series include **Australia**, **Brazil**, **China** and **Italy**, amongst others.

Macmillan Literature Collections

Looking for an advanced-level series to ease your students' transition from Graded Readers to authentic literature? By reading original short stories, written by famous classic and modern writers, students will enjoy the feeling that they are finally reading and studying literature just as it was written. There are 12 titles in the series, including **Travel Stories**, **Twentieth-Century Stories** and **Food Stories** and they come with substantial support material for each story.

Macmillan Young Readers

With three main reading series for children aged 4–12, you are spoilt for choice. The **Macmillan Young Readers** series offer factual readers with CLIL content, classic stories dealing with social responsibility, and contemporary topics that appeal to boys and girls equally, all especially for primary school pupils. For more information about **Macmillan Children's Readers**, **Macmillan Factual Readers** and **Macmillan English Explorers** (which include a four-level phonics scheme), see pages 32–33.

Using Graded Readers in the Classroom

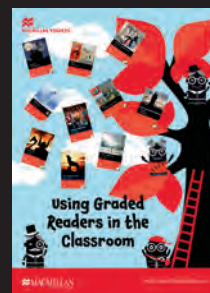

Make reading fun ...

Using film

- Give your students the names/ show photos of the key actors in the film that matches the Reader
- Ask students to guess which character they play, and give reasons why
- Show the class a clip from the film which includes the actors and check their answers

Using short stories

- Ask students to write a summary of a short story they have all read and change three pieces of information
- Ask students to exchange summaries and identify the information that has been changed

Case study Tuscany, Italy

Sound Foundations is an extremely effective book, particularly for adults who no longer learn by imitation as children do. Adult students need a system or code to work with. My students find Sound Foundations enjoyable and practical as it provides them with a lasting ability to improve their pronunciation."

Teaching Reading Skills in a Foreign Language

In **Teaching Reading Skills**, Christine Nuttall breaks down and examines the skills we use in reading. Based on this analysis, she suggests practical strategies you can immediately use in the classroom to help your students develop their reading competence to a higher level.

key features

- Examines ways to help students develop into effective readers in a foreign language, suggesting practical strategies that develop reading skills
- Contains a wide range of practical ideas and classroom activities, along with four sample lesson plans, which demonstrate how the various approaches can be used in a single lesson
- Especially useful for exam and EAP (English for Academic Purposes)
- Includes a chapter on testing reading skills

9781405080057

Uncovering Grammar

As teachers, we often talk about 'covering' grammar points. **Uncovering Grammar** explains why it is more useful to think about how we 'uncover' grammar to reveal the workings of the English language system to our students.

key features

- Challenges the traditional view of grammar as a thing to be learned, and suggests it is more like a process that emerges
- Shows how to create the right conditions for students to uncover grammar
- Suggests ways of creating awareness-raising tasks to help students acquire grammar, using extracts from real classroom exchanges, authentic texts and language teaching texts, to demonstrate the theory
- Provides a wide range of practical ideas, activities and photocopiable resources for classroom use

9781405080064

An A-Z of ELT

Looking for a definition for CLIL or CALL, or to explain essential language teaching concepts and terminology from fields including grammar, linguistics, discourse analysis and phonology? **An A-Z of ELT** is a fully cross-referenced, alphabetical guide.

key features

- Covers all the key terms used in ELT, including common acronyms – indispensable to teachers and teacher-trainers of all experience levels
- Summarises the major issues and debates associated with each theory or language teaching concept
- Uses readable, concise entries that teachers with little or no specialist knowledge can also use as well as cross-references to interrelated concepts and further reading

9781405070638

Beyond the Sentence

How do we design sentences to fit their purposes and how do we combine them to communicate complex, contextualised meanings? **Beyond the Sentence** takes discourse apart to show how it is organised and how this aids communication.

key features

- Provides a straightforward introduction to discourse and text analysis and suggests ways to evaluate and use learners' texts in more constructive ways
- Examines the features that make spoken and written text coherent and shows how this analysis can help students deal with the language needs of work, study and exams
- Suggests ways to help students work at the level of the text, backed up by practical, fun activities for achieving this goal in your classroom, including ready-to-use photocopiable tasks

9781405064071

author snapshot: Scott Thornbury

Scott has worked in ELT all his working life as a teacher, Director of Studies, school director and teacher-trainer in Egypt, the UK, New Zealand and Spain. Teacher education was the focus of his MA dissertation from Reading University. Scott's methodology titles include **Uncovering Grammar** and **Beyond the Sentence**.

400 Ideas for Interactive Whiteboards

- Provides a wealth of resources including practical ideas for using regular programs and software
- Includes suggestions for project work, 'learning to learn' activities and 'the connected classroom' as well as ways to create specifically tailored resources for teachers with higher levels of expertise

- Full of lively, fun and easy-to-teach activities with minimal or no extra resources required, making them accessible to all students
- Methodological support guides teachers who are new to teaching young learners, or non-language specialists

| 9781405099073 |

Uncovering CLIL

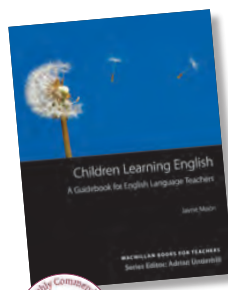

- A 'must-have' guide for both language and subject teachers to the various methodologies and techniques involved in CLIL teaching
- Presents a broad overview of CLIL essentials for teachers at primary, secondary and vocational levels
- Contains a wide range of practical ideas and activities that can be used for CLIL teaching in a number of languages
- Achieved a Highly Commended award from the English Speaking Union English Language Awards

| 9780230027190 |

Children Learning English

- Provides insight into the special characteristics, abilities and attitudes children bring to the classroom
- Reveals the exceptional features of teaching foreign languages to young learners, offering an inspiring read and a useful practical guide in a single volume
- Encourages reflection on how teachers can learn from children and how this information can be used in planning lessons and activities
- Suggests how to adapt ideas and frameworks to motivate young minds

| 9781405080026 |

Discover English

- Focuses on the process of language analysis – a key skill for language teachers and teacher trainers of all levels of experience
- Provides ways of analysing and understanding language systems through exercises and commentaries
- Suggests motivating and practical activities which lead to meaningful learning as well as providing training in using reference material

| 9781405080033 |

Uncovering EAP

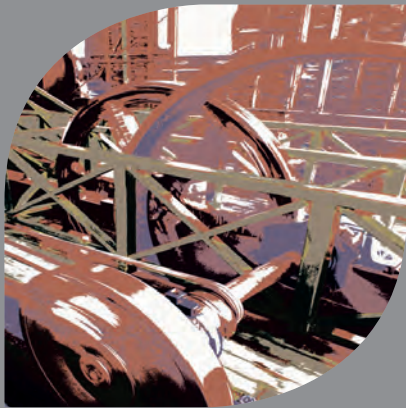

- A valuable companion for teachers involved in teaching English for Academic Purposes (EAP), whether newly-qualified or more experienced
- Explains the processes for teaching academic reading and writing through concise theoretical overviews
- Includes a range of practical worksheets and activities, as well as additional material to prepare students for the IELTS exam
- Provides case study examples of real-life challenges faced by EAP teachers and suggests how to deal with them

SAY NO TO PIRACY

Unauthorised copying of original material is illegal. Help us to protect the development of new educational materials.

Worldwide rights

Some of our titles are market restricted in certain regions of the world. For full details on the rights issues please visit the 'What We Publish' page on www.macmillaneducation.com

ePiracy

'ePiracy', or the sharing and downloading of books online is an illegal activity. The illegal sharing of Macmillan Education books, materials, websites and multi-media resources breaks all copyright code conventions and undermines our authors, and the efforts we invest in creating top quality resources. We take this illegal activity very seriously and we are currently working on initiatives, both internally within Macmillan's legal team, and with the Publishers Association to target the websites that infringe our copyright and trademark by sharing our materials, or by offering links to download materials. For full details of our activities visit www.macmillaneducation.com

Copying

The UK Copyright, Designs and Patents Act of 1988 allows a reader to make a single copy of a limited portion of a work for the purposes of non-commercial research or private study (fair dealing). This limit is subjective and advice should be sought from Macmillan Education.

It does not allow the copying of entire books or the making of multiple copies of extracts. In some countries it is possible for schools to do a limited amount of photocopying under the terms of a licence issued by a licensing agency such as the Copyright Licensing Agency (CLA) in the UK. It is also permissible to photocopy copyright material when the publisher has designated a book or part of a book 'photocopiable'. This special permission is always indicated clearly in the book both at the front and on every photocopiable page. Many of the Teacher's Books that accompany Macmillan Education ELT courses contain such photocopiable material. Under no circumstances may schools photocopy materials for use in self-access centres, unless they have registered with the Copyright Licensing Agency or an associated licensing agency and allow/use photocopying strictly in accordance with their regulations. Please see our website or contact Macmillan Education for further details on copying limits.

Rights and Permissions

If you would like to reproduce, translate or quote from material published by Macmillan Education in print, online, on television, on radio or via other digital media, please check first that we are the correct copyright holders by reading the following information: Only titles commencing with the following ISBNs: 978 1405-0, 978 0330, 978 0333, 978 0230 & 978 0435 will be copyrighted to Macmillan Education. For other titles, you will need to consult a bibliographic service such as the British Library or Library of Congress which will assist you to find the correct copyright holder.

Very old Macmillan titles with ISBNs commencing 0023 & 0024 are copyrighted to Prentice Hall/ Pearson Higher Education US: grace.mensah@pearson.com. ISBNs commencing 0028 (Macmillan Library Reference titles) are now copyrighted to PermissionRequest@cengage.com. Please note also that Free Press, Collier Macmillan and Macmillan Inc. (Macmillan New York) are not part of the Macmillan Group in the UK, these are part of Simon & Schuster in USA: please forward to Yessenia.Santos@simonandschuster.com. Any requests for Pan Macmillan UK should be forwarded to rights@macmillan.co.uk and those for Palgrave Macmillan UK should be forwarded to rights@palgrave.com.

If you have a permissions or rights request, you will need to complete a form to give us full details. Visit www.macmillanenglish.com to access and submit the Rights Request Form.

No requests will be considered or responded to if the required form is not completed. This is to ensure that we have all the necessary data to process your request.

PLEASE NOTE: Macmillan reserves the right to charge an administration fee of £35 to cover any direct costs should your request be granted and there may also be an additional fee for the right to reproduce or use the material.
